

ACKNOWLEDGEMENTS

I would like to express my deep gratitude to all those who have supported me in conducting this research.

I am grateful for Dr. Nitaya Klangchaneer's interest and encouragement to pursue my thesis topic, offering her academic guidance and knowledge, and serving as the principal advisor. My appreciation is extended to Dr. Ladawan Wattanaboot and Ajarn Sakol Sornsena for their encouragements, suggestions and being co- advisors; and to Assoc. Prof. Dr. Suwakit Sripathar and Dr. Pimyupa Watkhaolarm for their valuable comments and suggestions.

I feel deeply indebted to all my instructors from whom I have learned so much in giving me valuable knowledge throughout my studying at Rajabhat Maha Sarakham University; and to Ramkhamhaeng University and Chulalongkorn University for granting access to their reference materials.

Finally, special thanks to my colleagues, my friends, and my family for their concern, encouragement, and understanding throughout the time I spent on this research.
