### **ABSTRACT**

The purposes of this research were 1) to develop English learning activities for Mathayomsueksa III students using the SQ3R method with Isan folk tales that met the established 75/75 efficiency, 2) to compare the students' reading comprehension achievement before and after learning through use of SQ3R with Isan folk tales, and 3) to study the students' satisfaction with learning by using the SQ3R method with Isan folk tales. The target group consisted of 30 Mathayomsueksa III students studying in the second semester of the academic year 2012 at NikomnongkaewYannawetee School, HuaiPhung District, Kalasin Province, Office of Secondary Education Service Area 24. The instruments used in this research were instructional plans, Isan folk tales, an achievement test of reading comprehension skills, and a questionnaire for assessing Mathayomsuksa III students' satisfaction with learning by using SQ3R with Isan folk tales. The statistics used in analyzing data for this study were percentage, mean, standard deviation and t-test (Dependent Sample.)

The results of this research are as follows:

1. The efficiency index of the English learning activities for developing Mathayomsuksa III students' reading comprehension skills through use of the SQ3R method with Isan folk tales was 84.42/81.22, which was higher than the established 75/75 criterion
2. The students' posttest achievement in English reading comprehension skills was significantly higher than that of the pre-test at the .05 level of statistical significance.

3. The students' satisfaction with learning through the activities based on using the SQ3R method with Isan folk tales was found at the highest level.
